Hydrocarbon Processing

1971 Annual Editorial Index

Volume 50

Index reprints can be obtained by writing the Librarian,

HYDROCARBON PROCESSING, Box 2608, Houston, Texas 77001

ABSORPTION
NG/SNG handbook....Apr. 93
Stop MEA CO_2 unit corrosion....Aug. 109
Compute boiling points faster....Aug. 135
Design absorbers: use real stages....Sept. 201
Flue gas desulfurization technology....Oct. 104
ACETALDEHYDE see Petrochemical handbook
ACETIC ACID see Petrochemical handbook
ACETONE see Petrochemical handbook
ACETYLENE
New arc acetylene process....June 133
Petrochemical handbook....Nov. 113
ACRYLAMIDE see Petrochemical handbook
ACRYLICS
Synthetic fiber feedstocks....July 75
Petrochemical handbook....Nov. 113
ACRYLONITRILE see Petrochemical handbook
Acrylonitrile, how, where, who—future..Jan. 109
ACTIVATED CARBON
Make activated carbon from coke....Jan. 105
Pre-treat syn gas feeds....Jan. 126
ADDITIVES see specific
ADIPIC ACID see Petrochemical handbook
ADIP PROCESS see NG/SNG handbook
ADSORPTION see specific adsorptants
ALFOL PROCESS see Petrochemical handbook
ALKANE SULFONATE PROCESS
For alkane sulfonates use *in situ* peroxides....Apr. 163
ALKAR PROCESS see Petrochemical handbook
ALKYLATION
Processing discussed by NPRA panel....Mar. 93
Alkylate ethylene for motor fuel....May 119
ALLOYS see METALS
ALCOHOLS see specific
AMINES see also specific
NG/SNG handbook....Apr. 93
AMMONIA
Find equilibrium urea yield....Apr. 161
Petrochemical handbook....Nov. 113
AMMONIUM NITRATE see Petrochemical handbook
ANILINE see Petrochemical handbook
ANILINE POINT see TESTING
ANTIKNOCK RATING
Cyclic Powerforming ups octane....May 106
Tomorrow's gasoline—best route....May 111
Alkylate ethylene for motor fuel....May 119
Aromatics in 1980 and beyond....Sept. 147
New way to test product quality....Sept. 153
AROFINING PROCESS
Arofining improves jet fuel....Apr. 153
AROMATICS
A bigger role for cat reforming....Feb. 85
Cyclic Powerforming ups octane....May 106
Olefins from crude oil....June 124
New development in reforming....June 131
Xylene and higher aromatics see XYLENES
Auto exhaust—lead vs. aromatics....Sept. 142
Aromatics in 1980 and beyond....Sept. 147
Petrochemical handbook....Nov. 113

BENFIELD PROCESS see NG/SNG handbook
BENZENE see AROMATICS
BENZOIC ACID see AROMATICS
BIS (β-HYDROXYETHYL) TEREPHTHALATE (BHET)
Petrochemical handbook....Nov. 113
BISPHENOL A see Petrochemical handbook
BOILERS
Steam drum level stability factor....May 125
U.S. pressure vessel codes....June 99
Compressible flow in exchangers....Sept. 195
BOILING POINT
Easy way to estimate TBP data....Apr. 150
Compute boiling points faster....Aug. 135
BOMBS see SAFETY
BOXSCORE
Sec. 2....Feb., June, Oct.
BUBBLE POINT see BOILING POINT

BUTADIENE
Predict Europe butadiene needs....May 135
New catalyst for hydrogenation....Oct. 97
Petrochemical handbook....Nov. 113
BUTANE
NG/SNG handbook....Apr. 93
Light hydrocarbons as motor fuels....May 141
Which feeds for olefins?....Sept. 177
BUTANOL see Petrochemical handbook
BUTENES see Petrochemical handbook
BUTYLENE see Petrochemical handbook

CAPROLACTAM see Petrochemical handbook
CARBON BLACK see Petrochemical handbook
CARBON DIOXIDE
Find equilibrium urea yield....Apr. 161
NG/SNG handbook....Apr. 93
Stop MEA CO_2 unit corrosion....Aug. 109
Petrochemical handbook....Nov. 113
CARBON MONOXIDE
Auto emission control systems....May 85
Petrochemical handbook....Nov. 113
CAREER
Is your future outside of industry?....Oct. 129
The dynamics of career change....Oct. 131
Are leaders born or made?....Oct. 135
The work climate: (Part 1.)....Nov. 253
Should you seek an MBA degree?....Dec. 121
The work climate: (Part 2.)....Dec. 129
CASH FLOW see COSTS
CATADIENE PROCESS see Petrochemical handbook
CATALYSTS
A bigger role for cat reforming....Feb. 85
Reforming discussed by NPRA panel....Feb. 89
Find attrition in fluid beds....Feb. 103
Processing discussed by NPRA panel....Mar. 93
Auto emission control systems....May 85
Treat Claus tail gas....May 89
Alkylate ethylene for motor fuel....May 119
Know homogeneous catalysis (Part 1)...May 137
New development in reforming....June 131
Know homogeneous catalysis (Part 2)...June 137
Continuous Platforming is here....Sept. 151
How S.A.V.A. makes maleic....Sept. 167
New catalyst for hydrogenation....Oct. 97
CHLORINATED SOLVENTS see Petrochemical handbook
CHLOROFLUOROMETHANES see Petrochemical handbook
CHROMATOGRAPHY
New way to test product quality....Sept. 153
To get optimum chromatograms....Oct. 99
CLAUS PROCESS
Simulate sulfur recovery plants....Mar. 81
Treat Claus tail gas....May 89
COAL
Sulfur and the energy industry....Aug. 121
CODES see STANDARDS
COKING
Make activated carbon from coke....Jan. 105
Processing discussed by NPRA panel....Mar. 93
Delayed coking—what you should know..July 85
Coke quality and how to make it....Sept. 132
Combine desulfurizing and coking....Sept. 137
COMMUNICATION see MANAGEMENT and TRAINING
COMPRESSORS
Balance rotors by orbit analysis....Jan. 73
Optical alignment case histories....Jan. 80
Practical hints on vibration....Jan. 83
U.K. & German rotating equipment standards....June 101
U.S. rotating equipment standards....June 104
Simplify refrigeration estimating....July 105
Alignment of barrel-type compressors...Sept. 189
How to specify centrifugal compressors..Oct. 69
Reliability & performance specifications....Oct. 69
Design specifications & accessories....Oct. 72
Air compressor rotor and components..Oct. 74
Bearings, seals, testing....Oct. 76
Casing, nozzles and auxiliary piping...Oct. 79
Air filters and intercoolers....Oct. 80
Inspection, shipping & erection....Oct. 81
Operating checks and data....Oct. 87
Turbine driven compressors....Dec. 90
Adapt process to compressors....Dec. 96
COMPUTERS
Optimize olefin cracking coils....Mar. 76
Simulate sulfur recovery plants....Mar. 81
Thermo data refined for LPG see Thermodynamic properties
Estimate K-value with the computer....Apr. 137
Compute boiling points faster....Aug. 135
Computer systems....Dec. 94
CONSTRUCTION see BOXSCORE
CONTINUING EDUCATION see TRAINING
CORROSION
Treat NGL with Merox....Feb. 125
Corrosion specs. increase costs....July 101
Stop MEA CO_2 unit corrosion....Aug. 109
COSTS
Acrylonitrile: how, where, who—future..Jan. 109
Analyzing HPI intermediates....Feb. 95
Treat NGL with Merox....Feb. 125
Quantifying HPI uncertainties....Mar. 63
NG/SNG handbook....Apr. 93
Gulf HDS handles resids....May 97
Cyclic Powerforming ups costs....May 106
Tomorrow's gasoline—best route....May 111
Alkylate ethylene for motor fuel....May 119
Brazil plans oil shale processing....June 129
Can new equipment cost less?....July 97
Corrosion specs. increase costs....July 101
Simplify refrigeration estimating....July 105
Compare large HPI plants by index of technical success....Aug. 103
Sulfur and the energy industry....Aug. 121
Can engineers find happiness without calculus?....Aug. 133
Combine desulfurizing and coking....Sept. 137
Aromatics in 1980 and beyond....Sept. 147
Expand natural gas to remove N_2....Oct. 89
New catalysts for hydrogenation....Oct. 97
Executive pay: up, but not much....Nov. 249
Reduce taxes by pollution control....Nov. 259
Adapt process to compressors....Dec. 96
Keep up with OSHA developments....Dec. 118
Engineering unemployment: how bad?..Dec. 125
CRACKING/CHEMICAL
Optimize olefin cracking coils....Mar. 76
Processing discussed by NPRA panel....Mar. 93
Olefins from crude oil....June 124
Advances in hydrocracking....June 132
Engineering aspects of hydrocracking....June 132
New arc acetylene process....June 133
Coke quality and how to make it....Sept. 132
Which feeds for olfins....Sept. 177
CREATIVITY see MANAGEMENT
CRG HYGASIFICATION PROCESS see NG/SNG handbook
CRG METHANATION PROCESS see NG/SNG handbook
CRG PROCESS see NG/SNG handbook
CRYOGENICS
Thermo data refined for LPG see THERMODYNAMIC PROPERTIES
NG/SNG handbook....Apr. 93
CRYSTALLIZATION
Purity compounds by exaporative crystallization....Apr. 159
CYCLIZATION
Know homogeneous catalysis (Part 2)...June 137
CYCLODODECATRIENE
New catalyst for hydrogenation....Oct. 97
CYCLODODECANE
New catalyst for hydrogenation....Oct. 97
CYCLOHEXANE see Petrochemical handbook
CYCLOHEXANOL see Petrochemical handbook
CYCLOHEXANONE see Petrochemical handbook
CYCLONES
Cut off dome to replace internals....May 128

DEASPHALTING see LUBRICANTS
DECISION-MAKING see MANAGEMENT
DEHYDRATION
Tips on gas dehydration....June 151
Better feed gas preparation....Aug. 126
How S.A.V.A. makes maleic....Sept. 167
DEHYDROGENATION
A bigger role for cat reforming....Feb. 85
NG/SNG handbook....Apr. 93
Cyclic Powerforming ups octane....May 106
DELEGATION see Management
DENITROGENATION PROCESS see NG/SNG handbook
DESICCANTS
Better feed gas preparation....Aug. 126
NG/SNG handbook....Apr. 93
Gas dryers designed for multi-users....May 145
Tips on gas dehydration....June 151
DESULFURIZATION
Pre-treat syn gas feeds....Jan. 126
NG/SNG handbook....Apr. 93
Gulf HDS handles resids....May 97
Combine desulfurizing and coking....Sept. 137
Flue gas desulfurization technology....Oct. 104
DETERGENTS see ALKANE-SULFONATE
DEW POINTS see BOILING POINT
DEWAXING see LUBRICANTS
DIMERAZATION
Know homogeneous catalysis (Part 2)...June 137
DIMETHYL TEREPHTHALATE see Petrochemical handbook

XUM

DISASTERS
Lessons from Hurricane Celia.....Mar. 109
DISMUTATION
Know homogeneous catalysis (Part 2)..June 137
DISTILLATION
Purify methanol this way.....Feb. 115
NG/SNG handbook.....Apr. 93
Easy way to estimate TBP data.....Apr. 150
Estimate number of crude trays.....May 149
Best distillation feed points.....July 93
Compute boiling points faster.....Aug. 135
Design absorbers: use real stages.....Sept. 201
Expand natural gas to remove N_2.....Oct. 89
Estimate tower for naphtha cuts.....Oct. 109
Caution: pinch point in Y-X curve!....Nov. 233
Sieve trays? Consider viscosity.....Nov. 235
DRIVERS
User guide to steam turbines.....Mar. 71
Why use vertical inline pumps?.....May 131
Adapt process to compressors.....Dec. 96
DRYING
NG/SNG handbook.....Apr. 93
Gas dryer designed for multi-uses.....May 145
DURENE
Pyromellitic acid: oxidize durene.....June 143

ECONAMINE PROCESS see NG/SNG handbook
ELECTRIC ARC see ACETYLENE
ELECTRODES
Delayed coking—what you should know..July 85
Coke quality and how to make it.....Sept. 132
EMISSIONS see POLLUTION
EMPLOYES
Managee maneuvers.....Feb. 143
Occupational Safety & Health Act.....Apr. 146
Executive pay: up, but not much.....Nov. 249
Keep up with OSHA developments.....Dec. 118
EMPLOYMENT
Is your future outside of industry?.....Oct. 129
The dynamics of career change.....Oct. 131
The work 'climate' (Part 1).....Nov. 253
Should you seek an MBA degree?.....Dec. 121
Engineering unemployment: how bad?..Dec. 125
The work 'climate' (Part 2).....Dec. 129
ENTHALPY
Equations improve C_p* predictions.....Jan. 98
Applied hydrocarbon thermodynamics (Part 39).....Feb. 131
Applied hydrocarbon thermodynamics (Part 40).....Mar. 88
Light naphtha enthalpy measured.....May 93
Applied hydrocarbon thermodynamics (Part 41).....Sept. 183
ENVIRONMENT see POLLUTION
EPDM RUBBER see Petrochemical handbook
EQUILIBRIUM
Caution! pinchpoint in Y-X curve!.....Nov. 233
ESTIMATES see COSTS
ETHANE
Thermo data refined for LPG (Part 3)..Apr. 140
Light hydrocarbons as motor fuels.....May 141
Which feeds for olefins?.....Sept. 177
ETHANOL see Petrochemical handbook
ETHYLBENZENE see Petrochemical handbook
ETHYLENE
Optimize olefin cracking coils.....Mar. 76
Alkylate ethylene for motor fuel.....May 119
Olefins from crude oil.....June 124
New arc acetylene process.....June 133
Which feeds for olefins.....Sept. 177
Thermo data refined for LPG (Part 10).Oct. 90
Petrochemical handbook.....Nov. 113
E-P ELASTOMERS see Petrochemical handbook
ETHYLENE GLYCOL see Petrochemical handbook
ETHYLENE OXIDE see Petrochemical handbook
2-ETHYLHEXANOL see Petrochemical handbook
EVAPORATION see CRYSTALLIZATION
EXECUTIVE DEVELOPMENT see TRAINING
EXHAUSTS see POLLUTION
EXTRACTION see LUBRICANTS
EXPLOSIONS see SAFETY

FEED POINTS see DISTILLATION
FILING see RETRIEVAL
FILTERS
Filters protect catalyst beds.....Sept. 161
How to specify centrifugal compressors..Oct. 80
FIRE PROTECTION see SAFETY
FLARES
Redesign flare steam injectors for noise control.....Feb. 140
FLASH POINT see TESTING
FLEXICOKING PROCESS
Combine desulfurizing and coking.....Sept. 137
FLOATING ROOFS see TANKS
FLUID BED HYDROGENATION PROCESS see NG/SNG handbook
FLUIDIZING
Find attrition in fluid beds.....Feb. 103
FLUOR SOLVENT PROCESS see NG/SNG handbook
FORECASTING
Acrylonitrile: how, where, who—future..Jan. 109
Predict Europe butadiene needs.....May 135
Light hydrocarbons as motor fuels.....May 141
Fuel oil role in energy supply.....Spet. 123
More resid fuel problems to come.....Sept. 127
Aromatics in 1980 and beyond.....Sept. 147
Xylenes & higher aromatics see XYLENES
FORMALDEHYDE see Petrochemical handbook
FORMOX PROCESS see Petrochemical handbook
FOUNDATIONS
An easy way to compute tower foundation flexure.....Jan. 121
Foundation design for elevated towers..Apr. 129
U.S. structural & foundation standards..June 112

FREEZING POINT see TESTING
FUELS see also GASOLINE, JET FUELS
Arofining improves jet fuel.....Apr. 133
NG/SNG handbook.....Apr. 93
HPI progress in USSR.....June 123
Advances in hydrocracking.....June 132
Sulfur and the energy industry.....Aug. 121
Fuel oil role in energy supply.....Sept. 123
More resid fuel problems to come.....Sept. 127
Coke quality and how to make it.....Sept. 132
Auto exhaust—lead vs. aromatics.....Sept. 142
Aromatics in 1980 and beyond.....Sept. 147
Continuous Platforming is here.....Sept. 151
New way to test product quality.....Sept. 153
Syn gas from heavy fuels.....Dec. 119
FURNACES
Methane reformer furnace failures.....May 103

GAS CHROMATOGRAPHY see CHROMATOGRAPHY
GASOLINE see also FUELS
A bigger role for cat reforming.....Feb. 85
Analyzing HPI intermediates.....Feb. 95
Tomorrow's gasoline—best route.....May 111
Alkylate ethylene for motor fuel.....May 119
Light hydrocarbons as motor fuels.....May 141
HPI progress in USSR.....June 123
Advances in hydrocracking.....June 132
Delayed coking—what you should know..July 85
New way to test product quality.....Sept. 153
GIAMMARCO VETROCOKE PROCESS see NG/SNG handbook
GIRBOTOL PROCESS see NG/SNG handbook
GLYCERINE see Petrochemical handbook
GOFINING PROCESS
Combine desulfurizing and coke.....Sept. 137

HEAT CAPACITIES see THERMODYNAMIC PROPERTIES
HEAT EXCHANGERS
Short cut to exchanger tube-side pressure drop.....May 122
U.S. heat exchanger standards.....June 105
Short cut to exchanger shell-side pressure drop.....June 147
Compressible flow in exchangers.....Sept. 195
HEAT TRANSFER
Simplify refrigeration estimating.....July 105
Nomographs find pipe insulation thickness.....Nov. 231
HEXAMETHYLENE DIAMINE see Petrochemical handbook
HEXANE
Thermo data refined for LPG (Part 7)..July 115
HIGH DEWPOINT DEPRESSION DEHYDRATION PROGRESS see NG/SNG handbook
HURRICANES see DISASTERS
HYDROCRACKING
Processing discussed by NPRA panel....Mar. 93
Gas dryer designed for multi-uses.....May 145
Advances in hydrocracking.....June 132
Filters protect catalyst beds.....Sept. 161
HYDROGEN
New tar sands plant projected.....June 127
Continuous Platforming is here.....Sept. 151
New catalyst for hydrogenation.....Oct. 97
Petrochemical handbook.....Nov. 113
Syn gas from heavy fuels.....Dec. 113
HYDROGEN SULFIDE
Simulate sulfur recovery plants.....Mar. 81
NG/SNG handbook.....Apr. 93
Treat tail gas.....May 89
HYDROGENATION
Arofining improves jet fuel.....Apr. 133
NG/SNG handbook.....Apr. 93
Gulf HDS handles resids.....May 97
Know homogenous Catalysis (Part 1)....May 137
Lube refining in U.S. & Canada.....May 153
Engineering aspects of hydrocracking....June 132
New catalyst for hydrogenation.....Oct. 97
HYDROTREATING
New tar sands plant projected.....June 127
Combine desulfurizing and coking.....Sept. 137
HYDROVISBREAKING
New tar sands plant projected.....June 127
HYGAS PROCESS see NG/SNG handbook

IMPORTS
Fuel oil role in energy supply.....Sept. 123
More resid fuel problems to come.....Sept. 127
Xylenes & higher aromatics see XYLENES
INDEXING see RETRIEVAL
INFORMATION RETRIEVAL see RETRIEVAL
INHIBITORS see CORROSION
INSPECTIONS see SAFETY
INSTRUMENTATION
Process discussed by NPRA panel.....Mar. 93
Switch flow at interface.....Apr. 123
U.S. instrumentation standards.....June 106
Instrumentation.....Dec. 87
Computer systems.....Dec. 94
INSULATION/MATERIAL/
Better feed gas preparation.....Aug. 126
Nomographs find pipe insulation thickness.....Nov. 231
INVENTORIES see MAINTENANCE
INVESTMENTS
Analyzing HPI intermediates.....Feb. 95
Quantifying HPI uncertainties.....Mar. 63
ISOBUTYLENE see Petrochemical handbook
ISOBUTYRALDEHYDE see Petrochemical handbook
ISOMAR PROCESS see Petrochemical handbook
ISOMERIZATION
Know homogeneous catalysis (Part 1)..May 137

ISOPHTHALIC ACID
Xylene and higher aromatics (Part 2)..Aug. 113
ISOPRENE see Petrochemical handbook
ISOSIV PROCESS see Petrochemical handbook
ISOPROPANOL see Petrochemical handbook
ISOPROPYL BENZENE see Petrochemical handbook

JET FUELS
Arofining improves jet fuels.....Apr. 133
Advances in hydrocracking.....June 132
Water separometer test is tricky.....Aug. 129
Fuel oil role in energy supply.....Sept. 123
JGC METHANE RICH GAS PROCESS see NG/SNG handbook

K-VALUES
Estimate K-value with the computer....Apr. 137
Find equilibrium urea yield.....Apr. 161

LATENT HEAT see THERMODYNAMIC PROPERTIES
LEGISLATION see SAFETY and POLLUTION
LIQUID PHASE OXIDATION see OXIDATION
LNG (Liquified Natural Gas)
Natural gas grows in world use.....Apr. 125
NG/SNG handbook.....Apr. 93
Light hydrocarbons as motor fuels.....May 141
Cut LNG storage costs.....Aug. 117
LNG plant fire protection.....Sept. 205
LNG/water explosions: cause & effect...Nov. 240
LPG (Liquefied Petroleum Gases)
Pre-treat syn gas feeds.....Jan. 126
Treat NGL with Merox.....Feb. 125
NG/SNG handbook.....Apr. 93
Switch flow at interface.....Apr. 123
Natural gas grows in world use.....Apr. 125
Thermo data refined for LPG see THERMODYNAMIC PROPERTIES
LUBRICANTS
Lube refining in U.S. & Canada.....May 153

MAINTENANCE
Balance rotors by orbit analysis.....Jan. 73
Optical alignment case histories.....Jan. 80
Practical hint on vibration.....Jan. 83
Can you motivate contract maintenance workers?.....Jan. 87
Preventive maintenance today.....Jan. 91
Will PM help or hurt?.....Jan. 95
Training: key to mechanical seal life....Feb. 121
Maintenance hints from Hawaii.....Mar. 85
Cut off dome to replace internals.....May 128
New approach to inventory control.....Aug. 137
Alignment of barrel-type compressors....Sept. 189
MALEIC ANHYDRIDE
How S.A.V.A. makes maleic.....Sept. 167
Petrochemical handbook.....Nov. 113
MANAGEMENT
Synectics: enhancing group creativity (Part 2).....Jan. 133
Profile of a bureaucratic company.....Jan. 143
Managee maneuvers.....Feb. 143
Encounter groups in industry.....Feb. 151
How to handle bomb threats.....Feb. 157
The craft of management.....Mar. 115
Image of the ideal engineer.....Mar. 120
Improve your reading skills.....Apr. 173
The estranged engineer (Part 1).....May 157
The new consciousness and the engineer..May 165
The estranged engineer (Part 2).....June 157
Do engineers make good managers?.....June 163
Why management training must change..July 125
Apathy can be dangerous.....July 129
Why should you make a decision?.....Aug. 87
The manager as decision-maker.....Aug. 93
Decision-making techniques a guide to selection.....Aug. 98
Managing a retrieval file.....Sept. 225
Is your future outside of industry?.....Oct. 129
The dynamics of career change.....Oct. 131
Are leaders born or made.....Oct. 135
Executive pay: up but not much.....Nov. 249
The work 'climate' (Part 1).....Nov. 253
Reduce taxes by pollution control.....Nov. 259
Keep up with OSHA developments.....Dec. 118
Should you seek an MBA degree?.....Dec. 121
Engineering unemployment: how bad?..Dec. 125
The work 'climate' (Part 2).....Dec. 129
MARKETS
Acrylonitrile: how, where, who—future..Jan. 109
Natural gas grows in world use.....April 125
Watch propylene in Europe.....April 149
Sulfur and the energy industry.....Aug. 121
Fuel oil role in energy supply.....Aug. 123
More resid fuel problems to come.....Sept. 127
MATERIAL HANDLING see MAINTENANCE
MELAMINE see Petrochemical handbook
MEROX
Treat NGL with Merox.....Feb. 125
METALS
U.K. and German material standards...June 113
Corrosion specs. increase costs.....July 101
METAXYLENE
Xylenes & higher aromatics (Part2)....Aug. 113
METERING see INSTRUMENTATION
METHANE
Thermo data refined for LPG (Part 2)..Apr. 139
Light hydrocarbons as motor fuels.....May 141
Fuel oil role in energy supply.....Sept. 123
LNG/water explosions: cause & effect...Nov. 240
METHANOL see Petrochemical handbook
Purify methanol this way.....Feb. 115
MODIFIED CLAUS PROCESS see NG/SNG handbook
MOLECULAR SIEVES see DESICCANTS

MONOETHANOLAMINE
Stop MEA CO_2 unit corrosion.....Aug. 109
MOTIVATION see MANAGEMENT
MOTORS
U.K. & German rotating equipment standards.....June 101
U.S. electrical standards.....June 106

NAPHTHA
Pre-treat syn gas feeds.....Jan. 126
Light naphtha enthalpy measured.....May 95
Which feeds for olefins.....Sept. 177
Estimate tower for naphtha cuts.....Oct. 109
NAPHTHALENE
Xylenes and higher aromatics (Part 5)..Dec. 101
NATURAL GASES
Pre-treat syn gas feeds.....Jan. 126
NG/SNG handbook.....Apr. 93
Natural gas grows in world use.....Apr. 125
Tips on gas dehydration.....June 151
Sulfur and the energy industry.....Aug. 121
Better feed gas preparation.....Aug. 126
Expand natural gas to remove N_2.....Oct. 89
Syn gas from heavy fuels.....Dec. 115
NG/SNG HANDBOOK.....Apr. 93
NITRIC ACID see Petrochemical handbook
NITROGEN
NG/SNG handbook.....Apr. 93
Expand natural gas to remove N_2.....Oct. 89
NOMOGRAPHS
How to size condensate piping.....Apr. 152
Short cut to exchanger tube-side pressure drop.....May 122
Short cut to exchanger shell-side pressure drop.....June 147
NITROGEN OXIDES
Nomograph for NO oxidation.....Feb. 107
NOISE
Redesign flare steam injectors for noise control.....Feb. 140
U.K. & German rotating equipment standards.....June 101
How to specify centrifugal compressors..Oct. 72
NOZZLES
Quick nozzle reinforcement design.....Aug. 139
How to specify centrifugal compressors..Oct. 79
NYLON
Synthetic fiber feedstocks.....July 75

OLEFINS
For alkane sulfonates use *in situ* peroxides.....Apr. 163
Olefins from crude oil.....June 124
Which feeds for olefins.....Sept. 177
Petrochemical handbook.....Nov. 113
OLEFINSIV PROCESS see Petrochemical handbook
OLEX PROCESS see Petrochemical handbook
ORTHOXYLENE
Xylene and higher aromatics (Part 4)..Oct. 101
OXIDATION
Nomograph for NO oxidation.....Feb. 107
Pyromellitic acid: oxidize durene.....June 143
How S.A.V.A. makes maleic.....Sept.167
Syn gas from heavy fuels.....Dec. 113
OXO ALCOHOLS see Petrochemical handbook

PACOL PROCESS see Petrochemical handbook
PAREX PROCESS see Petrochemical handbook
PENTAERYTHRITOL see Petrochemical handbook
PENTANE
Thermo data refined for LPG (Part 6)..July 115
PERSONNEL see MANAGEMENT
PETROCHEMICAL HANDBOOK.....Nov. 113
PETROLEUM COKE see COKING
PHENOL see Petrochemical handbook
PHTHALIC ANHYDRIDE
Xylene & higher aromatics (Part 3)....Sept. 126
Petrochemical handbook.....Nov. 113
PHYSICAL PROPERTIES
Get latent heat from mole weight.....Feb. 106
Tips on gas dehydration.....June 151
PIPING
New TFE bearing pad coefficients.....Feb. 127
How to size condensate piping.....Apr. 152
How to specify centrifugal compressors..Oct. 79
Nomographs find pipe insulation thickness.....Nov. 231
PLANNING see also MAINTENANCE
Analyzing HPI intermediates.....Feb.. 95
Quantifying HPI uncertainties.....Mar. 63
Lesson from Hurricane Celia.....Mar. 109
PLATFORMING PROCESS see REFORMING
POLLUTION
Auto emission control systems.....May 85
Light hydrocarbons as motor fuels.....May 141
Sulfur and the energy industry.....Aug. 121
Auto exhaust—lead vs. aromatics.....Sept. 142
Flue gas desulfurization technology.....Oct. 104
Reduce taxes by pollution control.....Nov. 259
Wastewater treatment.....Dec. 109
POLYACETAL RESINS see Petrochemical handbook
CIS-POLYBUTADIENE see Petrochemical handbook
POLYBUTENES see Petrochemical handbook
POLYESTERS
Synthetic fiber feedstocks.....July 75
POLYETHYLENE see Petrochemical handbook
CIS-POLYISOPRENE see Petrochemical handbook
POLYMERS
New catalyst for hydrogenation.....Oct. 97
POLYOLEFINS
Synthetic fiber feedstocks.....July 75
POLYPROPYLENE see Petrochemical handbook
POLYSTYRENE see Petrochemical handbook
POLYVINYL CHLORIDE see Petrochemical handbook
POUR POINT see TESTING
POWERFORMING PROCESS
Cyclic Powerforming ups octane.....May 106
PRESENT WORTH see COSTS
PRESSURE VESSELS see also VESSELS
European pressure vessel code.....June 93
U.S. tanks and pressure vessel standards.....June 96
U.S. pressure vessel codes.....June 99
PRODUCTIVITY see MAINTENANCE and MANAGEMENT
PROFESSIONALISM see MANAGEMENT
PROPANE
Switch flow at interface.....Apr. 123
Light hydrocarbons as motor fuels.....May 141
Which feeds for olefins?.....Sept. 177
PROPERTIES LOSSES see SAFETY
PROPYLENE
Switch flow at interface.....Apr. 123
Watch propylene in Europe.....Apr. 149
Olefins from crude oil.....June 124
Which feeds for olefins?.....Sept. 177
Thermo data refined for LPG (Part 11).Oct. 90
Petrochemical handbook.....Nov. 113
PROPYLENE OXIDE see Petrochemical handbook
PROTEINS see Petrochemical handbook
PROXIMITY PROBES see COMPRESSORS
PUMPS
Practical hints on vibration.....Jan. 83
Why use vertical inline pumps?.....May 131
U.K. & German rotating equipment standards.....June 101
U.S. rotating equipment standards.....June 104
PURIFICATION
Purify methanol this way.....Feb. 115
Purify compounds by evaporative crystallization.....Apr. 159
PURISOL PROCESS see NG/SNG handbook
PYROLYSIS see CRACKING/CHEMICAL
PYROMELLITIC ACID
Pyromellitic acid: oxidize durene.....June 143

REACTION MECHANICS see CATALYSTS
REACTORS
Auto emission control systems.....May 85
Methane reformer furnace failures.....May 103
Filters protect catalyst beds.....Sept. 161
How S.A.V.A. makes maleic.....Sept. 167
RECYCLE HYDROGENATION PROCESS see NG/SNG handbook
REFLUX see DISTILLATION
REFORMING
A bigger role for cat reforming.....Feb. 85
Reforming discussed by NPRA panel....Feb. 89
Cyclic Powerforming ups octane.....May 106
Tomorrow's gasoline—best route.....May 111
Gas dryers designed for multi-uses.....May 145
New development in reforming.....June 151
Continuous Platforming is here.....Sept. 151
Syn gas from heavy fuels.....Dec. 113
REFRACTORIES
Cut installed cost of refractory anchors.Dec. 106
REFRIGERATION
NG/SNG handbook.....Apr. 93
Simplify refrigeration estimating.....July 105
Cold service units.....Dec. 92
Adapt process to compressors.....Dec. 96
REGENERATION
Continuous Platforming is here.....Sept. 151
RESEARCH OCTANE NUMBER see ANTIKNOCK RATING
RESIDFINING PROCESS
Combine desulfurizing and coking.....Sept. 137
RESIDUES
Gulf HDS handles resids.....May 97
Delayed coking—what you should know..July 85
Fuel oil role in energy supply.....Sept. 123
More resid fuel problems to come.....Sept. 127
Coke quality and how to make it.....Sept. 132
Combine desulfurizing and coking.....Sept. 137
RETRIEVAL
Managing a retrieval file.....Sept. 225
RETURN ON INVESTMENT see COSTS

SAFETY
How to handle bomb threats.....Feb. 157
Lessons from Hurricane Celia.....Mar. 109
Occupational Safety and Health Act....Apr. 146
Apathy can be dangerous.....July 129
LNG plant fire protection.....Sept. 205
LNG/water explosions: cause & effect...Nov. 240
Cold service units.....Dec. 92
Keep up with OSHA developments....Dec. 118
SCRUBBING
How S.A.V.A. makes maleic.....Sept. 167
Flue gas desulfurization technology.....Oct. 104
SEALS
Training: key to mechanical seal life....Feb. 121
When covered floaters are used.....Sept. 159
How to specify centrifugal compressors..Oct. 76
Adapt process to compressors.....Dec. 96
SELEXOL PROCESS see NG/SNG handbook
SELF DEVELOPMENT see MANAGEMENT
SENSITIVITY ANALYSIS see COSTS
SEPARATORS
How to specify centrifugal compressors.....Oct. 80, 87
SEPARATION see DISTILLATION
Easy way to estimate TBP data.....Apr. 150
Estimate number of crude trays.....May 149
Better feed gas preparation.....Aug. 126
Caution! pinch point in Y-X curve!.....Nov. 233
Sieve trays? Consider viscosity.....Nov. 235
SHALE OIL
Brazil plans oil shale processing.....June 129
SIEVE PLATES
Sieve trays? Consider viscosity.....Nov. 235
SILICA GEL see DESICCANT
SIMULATION see INVESTMENTS
SIDESTREAMS see STAGES
SMOKE POINT see TESTING
SNPA-DEA PROCESS see NG/SNG handbook
SODIUM ALKANE SULFONATES see Petrochemical handbook
SODIUM BISULFITE
For alkane sulfonates use *in situ* peroxides.....Apr. 163
SODIUM DICHROMATE
Pyromellitic acid: oxidize durene.....June 143
SOLVENTS
Treat Claus tail gas.....May 89
SPECIFICATIONS
Corrosion specs. increase costs.....July 101
How to specify centrifugal compressors..Oct. 69
STACK GAS see POLLUTION
STAGES
Estimate number of crude trays.....May 149
STANDARDS
European pressure vessel codes.....June 93
U.S. tank and pressure vessel standards..June 96
U.K. & German rotating equipment standards.....June 101
U.S. rotating equipment standards.....June 104
U.S. heat exchanger standards.....June 105
U.S. instrumentation standards.....June 106
U.S. electrical standards.....June 108
U.S. structural & foundation standards..June 112
U.K. & German material standards.....June-113
How to specify centrifugal compressors..Oct. 69
STARTUPS
Instrumentation.....Dec. 87
Turbine driven compressors.....Dec. 90
Cold service units.....Dec. 92
Computer systems.....Dec. 94
STATISTICAL INVENTORY see MAINTENANCE
STEAM DRUMS see VESSELS
STEAM TRACING see HEAT TRANSFER
STEAM TURBINES see TURBINES
STEELS see METALS
STORAGE see TANKS
STORES see MAINTENANCE
STRETFORD PROCESS see NG/SNG handbook
STRIPPING
Compute boiling points faster.....Aug. 135
Design absorbers: Use real stages.....Sept. 201
STYRENE
How styrene grows in Europe.....July 84
Petrochemical handbook.....Nov. 113
SUBSTITUTE NATURAL GAS (SNG)
NG/SNG handbook.....Apr. 93
Sulfur and the energy industry.....Aug. 121
Fuel oil role in energy supply.....Sept. 123
SULFINOL PROCESS see NG/SNG handbook
SULFUR
Simulate sulfur recovery plants.....Mar. 81
Treat Claus tail gas.....May 89
New tar sands plants projected.....June 127
Brazil plans oil shale processing.....June 129
Sulfur and the energy industry.....Aug. 121
Coke quality and how to make it.....Sept. 132
Combine desulfurizing and coking.....Sept. 137
Petrochemical handbook.....Nov. 113
SULFUR DIOXIDE
Treat Claus tail gas.....May 89
Sulfur and the energy industry.....Aug. 121
Flue gas desulfurization technology.....Oct. 104
SUN/THERMAL PROCESS see NG/SNG handbook
SUPERVISION
Profile of a bureaucratic company.....Jan. 143
Managee maneuvers.....Feb. 143
Encounter groups in industry.....Feb. 151
The craft of management.....Mar. 115
Why management training must change..July 123
Are leaders born or made?.....Oct. 135
The work 'climate' (Part 1).....Nov. 253
Keep up with OSHA developments.....Dec. 118
The work 'climate' (Part 2).....Dec. 129
SUPPORTS see PIPING
SURFACTANTS
Water separometer test is tricky.....Aug. 129
SWEETENING
Better feed gas preparation.....Aug. 126
SYNTHESIS GAS see Petrochemical handbook
SYNTHETIC FIBERS see specific materials
Synthetic fiber feedstocks.....July 75

TANKS see also VESSELS
Move tanks without dismantling.....Feb. 112
New rules prevent tank failures.....May 92
U.S. tank and pressure vessel standards..June 96
Cut LNG storage costs.....Aug. 117
When covered floaters are used.....Sept. 159
Move tanks on air cushions.....Nov. 229
TAR SANDS
New tar sands plant projected.....June 127
TATORAY PROCESS see Petrochemical handbook
TECHNICAL UNIONS see MANAGEMENT
TEREPHTHALIC ACID see Petrochemical handbook
TESTING
Arofining improves jet fuel.....Apr. 153
Corrosion specs. increase costs.....July 101
Water separometer test is tricky.....Aug. 129
New way to test product quality.....Sept. 153
TETRAETHYL LEAD
Auto emission control systems.....May 85

XUM

Tomorrow's gasoline—best route.....May 111
Light hydrocarbons as motor fuels.....May 141
Auto exhaust—lead vs. aromatics.....Sept. 142
Aromatics in 1980 and beyond.....Sept. 147

THERMODYNAMIC PROPERTIES
Equations improve C_p^* predictions.....Jan. 90
Get latent heat from mole weight.....Feb. 106
Applied hydrocarbon thermodynamics (Part 39).....Feb. 131
Thermo data refined for LPG (Part 1—equa. of state).....Mar. 101
Applied hydrocarbon thermodynamics (Part 40).....Mar. 88
Thermo data refined for LPG (Part 2—methane).....Apr. 139
Thermo data refined for LPG (Part 3—ethane).....Apr. 140
Light naphtha enthalpy measured.....May 95
Thermo data refined for LPG (Parts 4, 5—propane, n-butane).....June 116
Thermo data refined for LPG (Part 6—n-pentane).....July 115
Thermo data refined for LPG (Part 7—n-hexane).....July 115
Thermo data refined for LPG (Parts 8, 9—n-heptane, n-octane).....Sept. 170
Applied hydrocarbon thermodynamics (Part 41).....Sept. 183
Thermo data refined for LPG (Parts 10, 11—ethylene, propylene)...Oct. 90

TOLUENE see Petrochemical handbook

TOLUENE DIISOCYANATE see Petrochemical handbook

TOWERS see also VESSELS
Estimate tower for naphtha cuts.....Oct. 109

TRAINING
Training: key to mechanical seal life....Feb. 121
Occupational Safety & Health Act.....Apr. 146
The new consciousness and the engineer..May 165
Do engineers make good managers?.....June 163
Why management training must change..July 123
The dynamics of career change.....Oct. 131
Are leaders born or made?.....Oct. 135
Should you seek an MBA degree?.....Dec. 121

TRAYS
Estimate number of crude trays.....May 149
Estimate tower for naphtha cuts.....Oct. 109

TREATMENT
Reforming discussed by NPRA panel....Feb. 89
Treat NGL with Merox.....Feb. 125
Processing discussed by NPRA panel....Mar. 93
NG/SNG handbook.....Apr. 83
Arofining improves jet fuel.....Apr. 153
Treat Claus tail gas.....May 89
Gulf HDS handles resids.....May 97
Wastewater treatment.....Dec. 109

TRIMELLITIC ACID see Petrochemical handbook

TRIOLEFIN PROCESS see Petrochemical handbook

TRIOXANE see Petrochemical handbook

TURBINES
User guide to steam turbines.....Mar. 71
U.K. & German rotating equipment standards.....June 101
U.S. rotating equipment standards.....June 104
Alignment of barrel-type compressors....Sept. 189
Adapt process to compressors.....Dec. 96

TURBO-EXPANDER PROCESS see NG/SNG handbook

UNEMPLOYMENT see MANAGEMENT

UREA
Find equilibrium urea yield.....Apr. 161
Petrochemical handbook.....Nov. 113

VAPOR PRESSURE see TESTING

VAPORIZATION
Get latent heat from mole weight.....Feb. 106

VESSELS
Steam drum level stability factor.....May 125
Cut LNG storage costs.....Aug. 117
Quick nozzle reinforcement design.....Aug. 139
Move tanks on air cushions.....Nov. 229

VINYL ACETATE see Petrochemical handbook

VINYL CHLORIDE see Petrochemical handbook

VISCOSITY
Sieve trays? Consider viscosity.....Nov. 235

WAREHOUSES see MAINTENANCE

WASTE GAS see DESULFURIZATION

WATER SEPARATION see TESTING

WELDING
Corrosion specs. increase costs.....July 101

WORK SAMPLING see MAINTENANCE

XYLENES, see also Petrochemical handbook
Xylene and higher aromatics
Part 1—Sources, specs., producers, uses, outlook.....July 112
Part 2—Metaxylene.....Aug. 113
Part 3—Phthalic anhydride.....Sept. 152
Part 4—Orthoxylene.....Oct. 101
Part 5—Naphthalene.....Dec. 101

ZINC OXIDE
Pre-treat syn gas feeds.....Jan. 126
